

## ENERO - European Network of Environmental Research Organisations

Prof. Kari Larjava, VTT  
President of ENERO  
ENERO 3rd Scientific Workshop  
Risk Assessment and Management of Strategic  
Energy Technologies  
University Foundation, Brussels 5.3.2010

- ENERO is a non-profit association acting at the interface of **public authorities** (national and European) and **industry** within the **European research area** (ERA).
- ENERO key objectives in this field of **environmental science and technology** are:
  - Cooperation between member's
  - Research and advice
  - Technology development
  - Policy support
  - Expertise
  - Dissemination of knowledge
  - Organisation of workshop and conferences
- The network offers a multi-disciplinary and multi-sector-based approach combined with a very specific one developed by one particular members according its specificity.

ENERO (European Network of Environmental Research Organisations), was created in 1992, and is a non-profit association under the French law.

## Members

Members are non-academic **Research and Technology Organisations (RTOs)**, coming from all over **Europe**, which are:

Members:

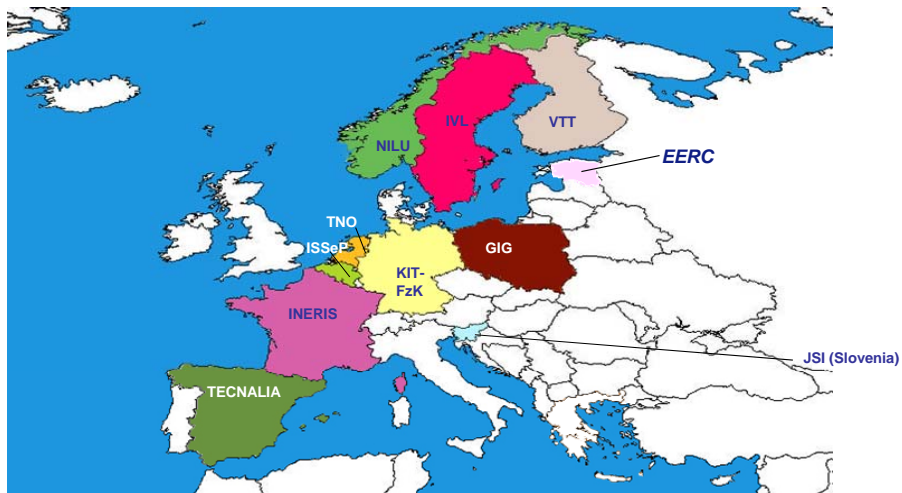

- EERC
- KIT (FzK)
- GIG
- INERIS
- ISSeP
- IVL
- JSI
- NILU
- TECNALIA
- TNO
- VTT

- Developing research activities or technology development in **support to policies**
- Providing their expertise to support both **competitiveness and sustainable development** of the European industry.

Environmental science and technology is the main core business of each ENERO members.

## ENERO in 2010

## Scientific skills

The **expertise** of ENERO in **environmental science and technology is wide**

Ranging and covers:

- Pollution control (air, water, soil)
- Toxicology and ecotoxicology
- Energy and environment
- Waste elimination, treatment and management
- Biological processes and bioproducts
- Clean technologies
- Environmental auditing and ecobalances
- Technical preparation of standards and regulations
- Risk assessment and management
- Health and Environment

Through this wide ranging expertise, ENERO is able to promote the concept of sustainable development.

Kari Larjava / 5

## Contribution by ENERO to the ERA ( European Research Area)

- Scientific internal meetings to organize research projects in answer to FP7 calls and other Programmes, based on the " Networking" effect of ENERO
- Exchange of personnel
- Open Scientific Workshops organized in Brussels in close collaboration with the European Commission:
  - 2006: "Risk management of nanoparticles" (with DG Research, DG Enterprise & Industry, DG Sanco, JRC)
  - 2008: "Interactions between Atmospheric Pollution and Climate Change at Regional Scale" ( with DG Research, DG Environment, JRC, the Committee of the Regions, the European Parliament)
  - 2010: "Risk Assessment and Management of Strategic Energy Technologies" (with DG RTD)
